About Me

3D Game Artist with experience creating game-ready asset for game using Blender and Unreal Engine

Experted in modeling and skilled in hand-painted textureing, rigging, animation, and gameplay integration through a solo-developed action-adventure game project.

Education

- **Mahanakorn University of Technology**
Bacheor of Engineering and Technology
Major : Technology Digital Multimedia Art
Graduated in 2026 with GPA 3.68
- **Bodindecha (Sing Singhaseni) 4**
Mathemetic and English Program
Graduated in 2022

Language Skills

Thai	Native speaker
English	Can communicate in normal situation, and able to understand relative english document

Project History

- 2026
Internship Project: Game 3D Development
Developed and optimized gameplay logic by applied Best Practice principle to the design to improve the system, make it easier to organize, maintenance and able to scale up in the future along with better codes.
- 2025
Solo Game Development: "Swordbound: Burden of the Chosen"
 - Designed and created 3D model game-ready asset of characters and environments.
 - Created hand-painted texture, and normal map baking
 - Created custom rigs and animations of the characters
 - Integrated asset into Unreal Engine 5
 - Developed gameplay systems using Blueprint
 - Created VFX using Niagara system
 - Designed AI with Behavior Tree
- 2024
3D Animation Project: "Spartan & Minotaur"
 - Created characters and environments
 - Created and designed animations
 - Did the lighting and rendering
 - Edited using Adobe Premiere Pro
- 2024
Application Development: AR "Holocard" using Unity
 - Created 3D models using Blender, and Geometry Nodes for creating hologram as a special display
 - Designed and developed application logic

Skills

- **3D Art**
 - Blender
 - Animation
 - Rigging
 - Sculpting
 - Retopology
 - UV Mapping
 - Texturing
 - Hand-painted Texturing
 - Baking

Game Engine

- Unity
- Unreal Engine

Technical

- Programming C#
- Blueprint
- Geometry Nodes

Software Level

- **Blender** — Advanced
- **Unreal Engine** — Intermediate
- **Unity** — Intermediate
- **Photoshop/ Procreate** — Intermediate
